 Cut on the dotted line and tape to the front of your package.

Recycling your old mobile phones and other wireless devices is simple, and it's free:

1. If you're including batteries, please ensure that the battery is fully discharged and your phone is powered off. Please do not include any loose batteries.
2. Place phones in appropriate packaging/envelope. There's no need to add extra packaging materials.
3. Print the pre-paid postage and affix it to the package. Make sure any previous delivery address and barcodes are covered.
4. Drop off the package/envelope in the mail.
